

Public Notice

For Applicants with Pending Applications in the Faculty Department.

The Pakistan Medical & Dental Council (PM&DC) hereby informs all applicants with pending applications in the faculty department. The applications are currently pending due to some unresolved objections. Applicants however multiple times were informed via portal to rectify these objections. Despite, a significant number of applications are still in objections, indicating a lack of interest from the applicants.

As a result, pendency continues to rise, creating unnecessary administrative burdens for the department. To streamline the process and to avoid further backlog, all such applicants are granted a final opportunity of seven (7) days from this notice to clear the outstanding objections through the PM&DC online portal.

Failure to comply within the specific time will result in the automatic removal of the applications pending since 31-12-2023, with no further correspondence or consideration.

For further correspondence, please contact the faculty department via E-mail at: faculty@pmdc.pk or by Phone at 051-9190000 Ext: 210.
