

PUBLIC ALERT

Pakistan Medical & Dental Council (PM&DC) is launching an updated version of online services for the doctors.

It has come into notice that some doctors have received calls from scammers, who claim to be employees of the PM&DC / other regulators. The scammers are asking for registration / verification of the degrees and certificates through PM&DC online portal. They are also demanding undue fee / favors against such services.

It is clarified that PM&DC does not contact any individual / institution unless any application is received through online portal for any specific service. Therefore, all doctors are advised in their own interest to stay alert from the scammers claiming to be employees of PM&DC or any other regulator and making any illegal transaction / payment for a service that has to be done under legal provision.

All doctors are also advised to register their details only in the new online portal and must not share login ID / password with any unknown person to avoid misuse of their personal data.

Furthermore, any doctor receiving a scam call is advised to contact the PM&DC immediately with a screenshot / evidence / telephone number to registrar@pmdc.pk for necessary action under the relevant law.
