

PRESS RELEASE

PM&DC successfully Conducts National Registration Examination Step 1

Islamabad [06-08-2023]: Pakistan Medical & Dental Council with an aim to reform and improve health care education and service delivery standards, working tirelessly for its all stake holders. PM&DC successfully conducts NRE Examination at 4 Venues of the country i.e Lahore, Peshawar, Karachi and Rawalpindi. 2675 candidates appeared in the NRE.

The candidates were given best possible facilities so that they can be able to give the exam in a good environment. NRE step one exam conducted was a theoretical MCQ based basic & clinical sciences evaluation exam for foreign medical graduates to qualify. Candidates who successfully clears the NRE step 1 will be eligible for NRE step 2 which is clinical evaluation for permanent licence. The whole purpose of the NRE is to test the competency, knowledge, and skills of a graduate to ensure they are a 'safe doctor' as they would be granted a license to treat patients independently. The NRE skills exam represents the basic skills that are mandatory for patient handling and management in the absence of which patients would be at severe risk.

President PM&DC stated that the National Registration Examination is likely to protect the right of the patients and to encourage all able and learned students to assume practice in the mainstream field. He added that PM&DC is working with clear vision and dedication to facilitate and improve the healthcare system in Pakistan.
